

# TECHNOSEEK

A real-world version of capture the flag, technoseek is a technology treasure hunt. It draws inspiration from actual Cicada 3301 events. As people overcome these obstacles and realise their own capacity for problem solving, it plays a significant function in stimulating the brains of inquisitive individuals and aids in the development of logical and technical skills.

## **Rules:**

- This event is open to all the students of DSCE Campus, irrespective of their department and semester.
- This is a team event and requires 3-4 players in each team.
- Prior registration needs to be done when the form is circulated. We will not entertain any on spot registrations.
- College ID Card is mandatory for this event.
- The whole event duration is 2 hours excluding the extra 1 hour which will be given for the gathering of all the participants and initial preparations.
- This event covers a wide range of technological aspects and tools. All the teams are free to use any resource at their disposal for solving the challenges.
- No team can help any other teams. If caught, both teams shall be disqualified.
- There will be no hints given at all during any phase of the hunt.
- All students are expected to reach the venue within the reporting time given by the organizers.
- Each team should have 1 laptop among themselves.
- There will be 2 teams that will conclude the winning of the Technoseek event, being the 1st and 2nd team to reach the final location and completing the task.
- Any kind of malpractice will lead to disqualification.
- The final decision will be at the discretion of the organizers.
